

BLACK&WHITE 3

Powiew magii...

BLACK&WHITE3 prezentuje innowacyjne rozwiązania Thermoplanu za pomocą których wyczarujesz perfekcyjne cappuccino, latte czy też napoje na bazie zimnego, spienionego mleka.

System modułów

BLACK&WHITE3 jest zbudowany z modułów, dlatego naprawa urządzenia jest szybka i mniej kosztowna. Wszystkie trzy moduły są wymieniane błyskawicznie - jest to unikalna cecha dla ekspresów automatycznych.

3 min

Moduł zaparzaczy

1 lub 2 młynki. Moduł zaparzaczy wykonany ze stali nierdzewnej gwarantuje najwyższą jakość smaku kawy.

Moduł hydrauliczny

Przygotowanie gorącej wody, dystrybucja wody, boiler do kawy, pompa, zawór.

Moduł do pary

Wysoka pojemność 4-litrowego boileru dla ciągłego strumienia pary i dostarczania gorącej wody.

Perfection

- modular assembly
- stainless steel brewing unit
- heavy-duty aluminium grinder with ceramic burrs
- steam pipe made of Peek™
- manual and automatic steam output
- chrome plated steel front panel
- touch screen with 7" LCD Display
- cold milk solution
- variety of products
- easy cleaning

Environment-friendly and efficient – you save energy

Thanks to the "energy save" technology developed by Thermoplan you save energy during operation. You reduce your operating costs and protect the environment.

Modern Operational Concept

The large, colourful touchscreen flexibly supports all products and can be adapted to your special requirements.

Whether changing the products' names, symbols or prices: Everything is done intuitively with the help of the easy to use interface.

The Touch Screen can also be used as an advertising platform. Pictures can be displayed using the screensaver. Choose to automatically activate the screensaver after a longer idle time.

Easy Cleaning

The BLACK&WHITE3 coffee machines are using an automatic cleaning system. Pressing a single button will do and the machine shows step by step instructions on the display how to complete the cleaning. By using a cleaning key the maintenance gets even easier.

CTM & CTM

The POD

All BLACK&WHITE3 model options are available with the standard coffee outlet or POD. All the usual pods can be inserted here. Whether caffeine-free or special blend - BLACK&WHITE3 will satisfy every customer's taste. Cleaning is also activated via the POD. Simply insert the cleaning tablet and start.

The Coffee Brewer

Equipped with all the cutting-edge features of a BW3 CTM, the CBT is the allrounder among the automatic coffee machines. Using a 7-litre tank and producing up to 30 litres of freshly brewed coffee per hour, it is perfectly designed for restaurants, hotels, bars, breakfast buffets and self-service applications.

The new BW3 CBTM ensures at all times the best quality coffee in the cup, even with cold milk beverages.

Versatile to suit all tastes

The CT prepares coffee and hot water and its mere 350 mm in width allows to fit on any countertop.

Whether hot or cold, the CTM makes preparing coffee or milk specialty beverages a success.

The CTMC is a great choice for both: coffee and chocolate lovers.

The CTS model is the right choice for traditional milk preparation with steam.
